

PROPER STORAGE EXTENDS THE SERVICE LIFE OF LINEMEN'S SLEEVES.

Folds and creases strain rubber and cause it to crack from ozone prematurely. By storing rubber sleeves in the right size bag, and never forcing more than one pair into each bag, equipment will lie flat and extend the life of the product.

Salisbury bags are constructed of heavy duty canvas duck and are double stitched and riveted at stress points for extra durability. Canvas bags feature a D ring for hanging in trucks or on work belts. Bags feature tapered gussets with wide opening tops for easy insertion.

SALISBURY ADVANTAGE

The **T32** bag contains a **CRUSH RESISTANT LINING** to create a more protective environment for your sleeves.

ACCESSORIES

SLEEVE BUTTONS, STRAPS AND HARNESES are required to wear rubber insulating sleeves properly. Four buttons, two straps and one harness is required per pair of sleeves.
