

ABSOLYTE GP
The Evolution of Power

- Non-gassing / non-spillable battery
- Smallest footprint
- From 100 to 6000 ampere hours
- Best choice for many applications....
 - telecom central office
 - wireless base station
 - utility substation / gen plant
 - datacenter UPS
 - renewables

- 12 volt VRLA battery blocs
- Sizes to 180 ampere hours
- Compact rack solutions
- For a variety of applications....
 - wireless base station
 - small telecom
 - PBX / customer premises
 - utility switchgear

MARATHON™

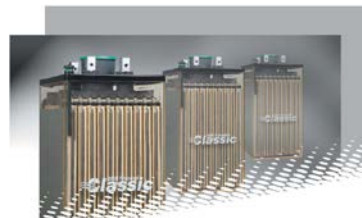

Sprinter

- High rate UPS bloc battery
- Cabinet and rack options
- Replacement upgrade
- Primary applications....
 - datacenter
 - industrial controls
 - emergency lighting

- Traditional flooded batteries
- Sizes to 4000 ampere hours
- Racks and spill systems
- For a variety of applications....
 - telecommunications
 - datacenter UPS
 - utility switchgear

Industrial Batteries

RELAY GEL™

CATV Batteries
with gel technology
for temperature extremes

BATTERY ACCESSORIES

- Racks
- Spill Systems
- Cleanup kits
- Monitoring
- Tools

UTILITY GRADE BATTERY CHARGERS

- Switchgear, gen plant & microwave
- Optional DC distribution
- Optional outdoor cabinets
- Customized DC power trailers
(for emergency backup or battery servicing)

NETWORK POWER SERVICES

- Engineer, furnish and install
- Battery installation / removal
- Installation certification
- Maintenance, testing and repair

LEAD-ACID BATTERY RECYCLING

- We pick up at your site
- GNB/Exide owned smelters
- Full documentation
- Top value paid for spent batteries
